

TH:01™ ENERGY™

SATT™
Special Advanced Technology for Trucks

THE PERFECT BALANCE BETWEEN FUEL EFFICIENCY AND HIGH MILEAGE, COMBINED WITH GRIP AND TRACTION ON WET AND DRY SURFACES.

- Deep siping enhances **traction** during whole tyre life, better **wet grip** and **reduced braking resistance**
- Close tread blocks and high ties between shoulder blocks promote **low rolling resistance**, greater frictionable surface area for **longer tread life** and **acoustic comfort**
- Directional tread pattern optimizes **grip performance** on both wet and dry surfaces
- The compound formulation enriched in silica and nano filler, limits heat generation for **lower rolling resistance**, **long tyre life** and **retreadability**

SIZE	LOAD INDEX / SPEED CODE	MARKING	
275/70 R 22.5	148/145 M (150/147 L)	M+S	D B A 72dB v
